

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Egerton Capital Equity Fund (the "Fund"): Class I GBP (the "Class") (ISIN: IE00B6XHPP99)

a sub-fund of Egerton Capital Equity Fund plc (the "Company")

The fund is managed by Waystone Management Company (IE) Limited (the "Manager")

Objectives and Investment Policy

The Fund aims to achieve growth on your investment. It does this by investing primarily in shares of companies around the world, including those in emerging market countries that are still developing their economies.

The Fund is actively managed and uses the MSCI World index in Sterling for performance comparison purposes only. The Fund has complete freedom from the benchmark index. While a proportion of the Fund may be components of and have similar weightings to the index, the Investment Manager may use its discretion to invest a significant proportion of the Fund in assets which are not included in the index or with weightings different to that of the index. There is no guarantee that the Fund's performance will match or exceed the index.

The Fund will not concentrate its investments in any particular industrial sector or country or region. The Fund may invest up to 25% of its net assets in Russian companies.

The investment manager will typically select companies based on their specific qualities rather than general industry and economic trends. At times, the Fund may also invest in cash and money market instruments (e.g. certificates of deposit and similar instruments with short term maturity).

The Fund may use instruments whose value is determined by changes in the value of the underlying assets they represent (derivatives).

The Fund may do so in order to manage the Fund more efficiently (e.g., reducing risks or costs or generating additional growth or income) and for investment purposes. For more information about the investment policy, see "Investment Objective and Policy" in the Fund's prospectus available from the Administrator.

You may buy and sell your shares on the first working day of the week and the first working day of the month, provided banks in Dublin and London are open (dealing day). You must submit your subscription request to the Administrator before 5.00 pm (Dublin time) on the day before the working day immediately before the relevant dealing day and your redemption request before 5.00pm (Dublin time) on the working day falling at least seven calendar days before the relevant dealing day.

Any income the Fund generates will be reinvested to grow the value of your investment.

Recommendation: *the Fund may not be appropriate for investors who plan to withdraw their money in 5 years.*

Risk and Reward Profile

The risk category is based on historical data and may not be a reliable indicator of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest risk category does not mean the investment is risk free.

The Fund is in category 5 as it is higher risk as a result of investing in shares of companies worldwide including those in emerging market countries. This means it typically produces higher rewards than other funds (such as money market funds).

Risks materially relevant to the Fund which may not be adequately captured by the indicator:

- **Currency risk:** the Fund invests in assets which are priced in currencies other than the Fund's base currency (Sterling). Changes in exchange rates may lead to fluctuations in the value of your investment. The Fund does not intend to use techniques (investment level hedging) to try to limit the currency exchange risk for this Class.

- **Derivatives risk:** the value of a derivative depends primarily on the performance of the underlying asset. A small movement in the value of the underlying asset may cause a large adverse movement in the value of the derivative and therefore the net asset value of the Fund. The other party to the derivative may not meet its obligations. Use of derivatives may create leverage and may result in losses that are greater than the original amount invested.
- **Investment risk:** the Fund may not achieve its investment objective and the value of shares in the Fund may fall.
- **Emerging market risk:** the Fund may invest part of its assets in emerging market countries. Such investments will be subject to greater risk due to possible political, economic, corporate governance, legal, market, accounting, custody and other risks. Assets may be lost or more difficult to sell in emerging market countries.
- **Investment in Russia risk:** investments in Russia will be subject to greater risk due to political, economic, market, accounting, governance and other risks. Assets may not be

properly held in custody and, as a result, may be lost.

See also the description of risks applicable to the Fund in “**Risk Factors**” in the Fund’s prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.20%
Exit charge	0.20%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	1.20%
------------------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	10.00% a calendar year of any return per share which is 3.00% per year pro-rata for each day in the calendar year above the benchmark MSCI World index in Sterling (Bloomberg Reference: NDDUWI Index/GBP WMCO Currency). Performance fee charged in the financial year ending 31 December 2025: 0.0% (calculated in respect of an investor who has remained invested since the launch of the Class).
------------------------	--

The **ongoing charges** figure is based on expenses for the period ended 31 January 2026. This figure may vary from year to year.

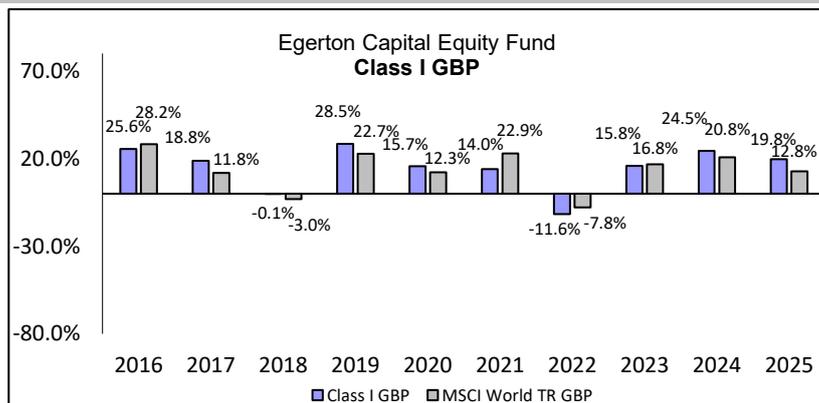

It excludes:

- performance fees; and
- portfolio transaction costs, except in the case of any entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

The entry and exit charges shown reflect the maximum amount chargeable as an anti-dilution levy each time you invest in or redeem from the Fund. The anti-dilution levy is payable by you to cover the costs incurred by the Fund in buying and selling investments. The levy is paid to the Fund for the benefit of all shareholders.

For more information about charges, see “**Expenses**” in the Fund’s prospectus.

Past Performance

Performance in the past is not a reliable indicator of future results.

In general, any past performance takes account of all ongoing charges.

The Fund launched on 13 March 1995 and the Class launched on 3 October 2011.

Past performance is calculated in Sterling.
